

Please restrict unsolicited facsimile transmissions which seek to sell a product or service. I am tired of my fax machine being used to underwrite the marketing budget of people too cheap to buy an ad in a newspaper, or mail out their advertisements in the mail. It is my fax machine, which I use for my business. I have to pay for the paper and the ink cartridge. When it is being used to print the advertisement for some vendor, I cannot use it to accept fax messages in my business, or transmit fax messages to those I need to contact.
